

Thermal Angel[®]

Blood and IV Fluid Infusion Warmer

Testimonial

Keywords: Blood, EMS, Flight Service, Prehospital

I have had the fortunate opportunity to use the Thermal Angel since its introduction. It is a one of a kind production with proven results. It is simple and fast to assemble for use. It is a must for prehospital use especially for those of us that administer blood products in the field.

Kevin Grossman, RN, CEN, EMT-P
