

# Thermal Angel®

**Blood and IV Fluid Infusion Warmer**

## ***Testimonial***

***Keywords: Casualty Evacuation, EMS, Flight Service, Military***

---

I'm a believer in the Thermal Angel. Best piece of medical equipment I had with me in (\*\*\*). On a night casualty evacuation at 18,000 feet in the air and an outside temperature of -20°C the Thermal Angel fluid warmer made the difference between a hypothermic patient going downhill and a warm happy survivor. He was responsive and improving every minute of our flight back to the field hospital. Everyone who saw it, wanted one for themselves.

**Scott S.**

U.S. Military
